### Intro to "Taking Shape Leadership Program"

**4:00 pm with Tracey Wozny**

Taking Shape is a youth leadership curriculum with a mission of creating young leaders. The program is designed to develop strong core character values in dancers and equip them with life skills needed to succeed beyond high school or college. Leadership components include a training student assistants module and a continuing education dance pathway partnership between the dance family and the studio. Come learn more and enjoy an open discussion on tips to grow young leaders in your studio! Open to studio teachers and parents alike. No registration required or class bracelets needed. This special presentation will take place in the Beginner room.

### TEACHING CONTEMPORARY
